2022-23 Budget Info & Input Session

February 10, 2022

Middleton Fire Hall

Time To Be Determined

The Town is organizing a budget information and input session for the 2022-23 Capital and Operating Budgets, including a presentation on our Asset Management Plan. We are planning to offer an afternoon and evening session. Details will be shared closer to the date.

Needs Assessment Survey

The Town will be conducting a Needs Assessment Survey the first week of February.

The purpose of the survey is to gather important information and data that will help us enhance Town services, identify gaps and identify the needs that may have been overlooked.

The survey will take approximately twenty to thirty minutes and can be done online or in paper form. We will have staff and technology available for those who need it.

We hope to hear from as many people as possible in the three weeks that we will be administering the survey, so we can better serve our community in the future.

There will be three random gift card draws for those who participate.
